

I am a faithful listener of K-LOVE radio on FM radio. I understand that a new LPFM service may be expanded and take priority over current FM translator service. I would ask you to reconsider this issue. I know that for me, and my friends, that if KLOVE were displaced, there would be no other broadcaster providing a Christian contemporary music station that provides like entertainment and wholesome family values. For Christian listeners, it is our lifeline, it is encouraging life-affirming music and talk; something there is too little of in our community today. I financially support this radio station because I believe in their mission. Please preserve KLOVE by supporting the current FM translator service.
